

Press Release

RITTERSHAUS advises Tessolve on the acquisition of the European chip design market leader Dream Chip Technologies

Munich/Mannheim, March, 3, 2025: The commercial law firm [RITTERSHAUS](#) has successfully advised Singapore-based Tessolve Engineering Services Pte Ltd ("**Tessolve**") on the acquisition of the German Dream Chip Technologies GmbH with registered seat in Garbsen and its Dutch sister company Dream Chip Technologies B.V. with its registered seat in Waalre ("**Dream Chip Technologies**"). The acquisition has been approved by the German Federal Ministry of Economics and Climate Protection in December 2024 and closed in February 2025. The parties have agreed to keep the purchase price confidential.

Tessolve is leading provider of semiconductor engineering solutions for state-of-the-art chips.

With the acquisition of Dream Chip Technologies, Tessolve joins a select group of companies worldwide capable of delivering turnkey design solutions for complex, state-of-the-art chips. The acquisition strengthens Tessolve's leadership position in the industry with the addition of market-leading expertise in system-on-chip (SoC) designs for the automotive, data centre and industrial markets.

Tessolve is a leading provider of semiconductor engineering solutions for state-of-the-art chips and offers a comprehensive range of pre- and post-silicon solutions and provides complete turnkey services from design to packaged parts. Founded in Bangalore, India, the group has now expanded its presence to more than 10 countries and serves 9 of the top 10 technology companies in the world. With its advanced silicon and system test labs, Tessolve offers its customers a one-stop shop for hardware and software needs, enabling quick turnaround of market requirements for new or existing products.

Dream Chip Technologies is Europe's leading independent engineering service provider in the field of chip design, specialising in the development and design of ASICs, SoCs, FPGAs, embedded software and discrete systems. With more than 25 years of experience in the microelectronics industry, the company offers comprehensive turnkey solutions covering all phases from chip specification to production and delivery.

Tessolve received comprehensive legal advice on the takeover from a team specialising in international M&A transactions from the commercial law firm RITTERSHAUS, led by Munich partner [Dr. Milena Charnitzky](#). This was the second time that RITTERSHAUS acted for the Tessolve Group. The transaction underlines the strong positioning of RITTERSHAUS' corporate and M&A practice in international, cross-border acquisitions and sales. RITTERSHAUS regularly advises companies, in particular from the USA, the European Union, China, Singapore, Hong Kong and India, on investments in Germany.
